ABSTRACT

In 1974, the State of Maryland adopted a plan for the desegregation of public post secondary educational institutions. In accordance with that plan, this volume includes statistical data on student enrollment for Fall 1976. Detailed data is presented according to student standing in program, full or part time status, degree sought, and program area of enrollment. In addition to a statistical breakdown by individual institution, data are also given for the aggregate units: "public statewide total", total in "predominantly black institutions", and total in "predominantly white institutions". Brief summaries of the trends shown in the tables are offered. Ethnic categories studied include: American black, Indian, Asian, Hispanic and white; "foreign"; and "other/unknown". (GC)

Dear Governor Lee:

Enclosed is the third volume of the Third Annual Desegregation Status Report. This volume includes data on student enrollment by program area, fall 1976; the data were collected in accordance with the provisions of the *Maryland Plan for Completing the Desegregation of the Public Postsecondary Education Institutions in the State*.

Progress continues to be made toward achieving a statewide racial balance among students. The percent of black full-time undergraduate students has increased from 20% of the total in 1975 to 21.5% in 1976. Eleven predominantly white institutions have reached the range of black enrollment projected for 1980. Twenty of thirty-one reporting campuses have increased the percentage of "other-race" full-time undergraduate students since fall 1975.

Sincerely,

Sheldon H. Knorr
Commissioner

INTRODUCTION

This is the third volume of the Third Annual Desegregation Status Report, February 1977. This volume includes data on student enrollment within program areas of Maryland public postsecondary education institutions. Other volumes of the Report are:

Volume I	Summary Tables
Volume II	Student Related Data: Admissions, Residence, Financial Aid, Degrees Awarded and Progression
Volume IV	Employees in Institutions of Higher Education and State Agencies; Members of Governing Boards

The data for this report were collected in fall 1976 with the cooperation of the higher education institutions and segmental boards. The Third Annual Desegregation Status Report has been prepared and published in accordance with the provisions of the Maryland Plan for Completing the Desegregation of the Public Postsecondary Education Institutions in the State.

Brief Description of Trend and Summary Tables 10a-10f

Trends in Racial Composition of Full-Time Students (Table 10a and 10b)

Tables 10a and b illustrate the continual progress that Maryland public postsecondary education institutions are making toward reaching their 1980 projected ranges of full-time black student enrollment. Table 10a presents data from 1970 through 1976, with projected ranges for full-time undergraduate students; Table 10b illustrates enrollment patterns of graduate and first professional students with 1980 projected ranges.

The percentage of full-time black undergraduate students has increased from 13.3% in 1970 to 21.5% in 1976; the 1980 projected range is 21-23%. Eleven institutions have already reached their 1980 ranges of black enrollment. The percentage of full-time black graduate and first professional students increased from 7.7% in 1970 to 10.2% in 1975, but dropped to 9.1% in 1976; the 1980 projected range is 12-16%.

Table 10c Summary of all Students Enrolled, Fall 1976

Table 10c illustrates the total number of students enrolled in 1976, including full and part-time undergraduate, graduate and first professional level students. Maryland public postsecondary education institutions reported a total of 180,897 students enrolled in the fall of 1976: 71.5% were white students, 18.5% were black students, .3% were American Indians, .9% were American Asians, .6% were American Hispanic, 2.1% were foreign and 5.8% were of unknown race.

The predominantly white colleges and universities reported that 12.7% of all students enrolled were black, 77.5% were white and 9.6% were of other races. The predominantly black institutions reported 15.1% white enrollment, 79.6% black enrollment and 5.2% of other races.

Tables 10d, 10e and 10f Trends in Enrollment by Program

Tables 10d, e and f presented trends in enrollment by program area, comparing fall 1975 and fall 1976 for undergraduate, graduate and first professional level students. Although the amount of change in enrollment patterns is small between 1975 and 1976, there are some points to be noted.

On the undergraduate level (Table 10d), the number and percent within program of black students enrolled in the fields of Computer & Information Sciences, Education and Natural Sciences Technology has increased. Enrollment for black students has decreased in the fields of Law and Public Service Related Technology.

On the graduate level (Table 10e), the number and percent within program of black students enrolled in the fields of Library Sciences, Pschology and Public Affairs & Services has increased. The number and percent within program of black students enrolled in the fields of Letters, Mathematics and Social Sciences have decreased.

Table 10f indicates a slight increase in black students enrollment in both Medicine and Dentistry; there was a drastic increase in the number of blacks studying Law: from 136 in 1975 to 178 in 1975; however, as percent within the program, the black students share went down from 7.5% to 6.3%.

Directions for Use of Table 11

Student Enrollment by Program, Fall 1976

Table 11 presents detailed information about students enrolled in Fall 1976 according to standing in program, full or part-time status, degree sought, and program area of enrollment at Maryland public postsecondary institutions. The data are organized by the following categories:

Program Areas: The academic programs are listed according to the HEGIS Taxonomy of Instructional Programs in Higher Education. (See Appendix B.)

Full and Part-Time Status: Full-time students are those whose academic load is at least 75% of the normal full-time load - usually between 12 and 15 credit hours per semester hours for undergraduate students, between 9 and 12 semester hours for graduate students. Students enrolled for less than 75% of the normal full-time load are reported as Part-Time Students.

Standing in Program: Full and part-time students are reported according to their class standing: undergraduates are reported according to their year of attainment (e.g. 1st year, 2nd year, etc.); graduates and first professional students are reported according to the full-time equivalent of required study (e.g. less than one full year; one or more full years completed). Unclassified students are those who are not candidates for a degree, although taking regular courses; students who cannot be classified by year and students who are taking additional courses at a previously attained degree level or lower.

Community/Junior College Transfers: Undergraduate students who transferred from community or junior colleges for the first time Fall 1976. These students are included in the full and part-time undergraduate total counts.

First Time Graduates: Students who enrolled as graduate students for the first time, Fall 1976. These students are included in the full and part-time graduate total counts.

Doctorate, all but Dissertation: Doctorate candidates who have completed their course work, and mush finish their dissertation to be awarded their degree.
